

Chapter 2

List of Tables

Table 2.1-1	Population per Directional and Radial Sector (1991).....	2.1-4
Table 2.1-2	Population per Directional and Radial Sector (2034).....	2.1-5
Table 2.1-3	Population Density (1991 and 2034)	2.1-6
Table 2.2-1	Potential Toxic Chemicals Stored Onsite (Per Unit).....	2.2-13
Table 2.3-1	Locations of the Weather Stations and Periods of Record.....	2.3-22
Table 2.3-2	Average and Extreme Air Temperatures in Northern Taiwan	2.3-23
Table 2.3-3	Prevailing Wind Direction, Average and Extreme Wind Speeds in Northern Taiwan.....	2.3-24
Table 2.3-4	Average and Extreme Precipitation in Northern Taiwan.....	2.3-25
Table 2.3-5	Rainy Days, Rainy Hours, and Thunderstorm Days in Northern Taiwan	2.3-26
Table 2.3-6	Average and Minimum Relative Humidities in Northern Taiwan	2.3-27
Table 2.3-7	Number of Typhoons That Invaded Taiwan (1947 - 1990).....	2.3-28
Table 2.3-8	The Top Ten Strong Winds Observed at Keelung Weather Station (1947 - 1990).....	2.3-29
Table 2.3-9	The Top Ten Strong Winds Observed at Ilan Weather Station (1947 - 1990).....	2.3-30
Table 2.3-10	The Top Ten Strong Winds Observed at Taipei Weather Station (1947 - 1990)	2.3-31
Table 2.3-11	Number of Typhoons With Wind Speed >15m/s in Northern Taiwan (1947 - 1990).....	2.3-32
Table 2.3-12	Frequency of Different Grade Wind Speed Observed During Typhoons That Invaded Northern Taiwan (1947 - 1990).....	2.3-32
Table 2.3-13	Frequency of Wind Directions for Groups of Wind Speed for Low Tower El. 21 m at Lungmen.....	2.3-33
Table 2.3-14	Frequency of Wind Directions for Groups of Wind Speed for Low Tower EL. 63 m at Lungmen.....	2.3-36
Table 2.3-15	Frequency of Wind Directions for Groups of Wind Speed at Lungmen NPS Site for High Tower.....	2.3-39
Table 2.3-16	Frequency of Wind Directions for Groups of Wind Speed at Lungmen NPS Site for High Tower.....	2.3-42
Table 2.3-17	Wind Speed Summaries at the Lungmen NPS Site.....	2.3-45
Table 2.3-18	Wind Speed Summaries at Keelung Station.....	2.3-46
Table 2.3-19	Monthly Longest Consecutive Hours of Wind Direction for Low Tower El. 21 m at Lungmen NPS Site.....	2.3-47
Table 2.3-20	Monthly Longest Consecutive Hours of Wind Direction for Low Tower El. 63 m at Lungmen NPS Site.....	2.3-48

List of Tables (Continued)

Table 2.3-21	Monthly Longest Consecutive Hours of Wind Direction High Tower El. 63 m at Lungmen NPS Site.....	2.3-49
Table 2.3-22	Monthly Longest Consecutive Hours of Wind Direction High Tower El. 93 m at Lungmen NPS Site.....	2.3-50
Table 2.3-23	Air Temperature at Lungmen NPS Site (Jul. 1980 - Dec. 1996).....	2.3-51
Table 2.3-24	Air Temperature at Keelung Station (1903 - 1995).....	2.3-52
Table 2.3-25	Relative Humidity at Lungmen NPS Site and Keelung Station	2.3-53
Table 2.3-26	Dew-Point Temperature at Lungmen NPS Site (Mar. 1994 - Feb. 1997)	2.3-54
Table 2.3-27	Precipitation at Lungmen NPS Site.....	2.3-55
Table 2.3-28	Precipitation at Keelung (1903- 1995).....	2.3-56
Table 2.3-29	Monthly and Annual Frequency Distribution of Wind Direction and Precipitation Occurrence for Low Tower El. 21 m at Lungmen NPS	2.3-57
Table 2.3-30	Monthly and Annual Frequency Distribution of Wind Direction and Precipitation Occurrence for Low Tower El. 63 m at Lungmen NPS	2.3-60
Table 2.3-31	Monthly and Annual Frequency Distribution of Wind Direction and Precipitation Occurrence for High Tower El. 63 m at Lungmen NPS.....	2.3-63
Table 2.3-32	Monthly and Annual Frequency Distribution of Wind Direction and Precipitation Occurrence for High Tower El. 93 m at Lungmen NPS.....	2.3-66
Table 2.3-33	Average Fog Days at Lungmen NPS Site and Keelung Station	2.3-69
Table 2.3-34	Monthly and Annual Summaries of Atmospheric Stability at Low Tower Lungmen NPS Site (1987 - 1996)	2.3-70
Table 2.3-35	Monthly and Annual Summaries of Atmospheric Stability at High Tower Lungmen NPS Site (1987 - 1996)	2.3-71
Table 2.3-36	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (January).....	2.3-72
Table 2.3-37	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (February).....	2.3-75
Table 2.3-38	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (March).....	2.3-78
Table 2.3-39	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (April)	2.3-81
Table 2.3-40	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (May).....	2.3-84
Table 2.3-41	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (June)	2.3-87

List of Tables (Continued)

Table 2.3-42	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (July).....	2.3-90
Table 2.3-43	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (August).....	2.3-93
Table 2.3-44	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (September)	2.3-96
Table 2.3-45	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (October).....	2.3-99
Table 2.3-46	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (November).....	2.3-102
Table 2.3-47	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (December)	2.3-105
Table 2.3-48	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 21 m at Lungmen NPS Site (Annual).....	2.3-108
Table 2.3-49	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (January).....	2.3-111
Table 2.3-50	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (February).....	2.3-114
Table 2.3-51	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (March).....	2.3-117
Table 2.3-52	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (April)	2.3-120
Table 2.3-53	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (May).....	2.3-123
Table 2.3-54	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (June)	2.3-126
Table 2.3-55	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (July).....	2.3-129
Table 2.3-56	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (August).....	2.3-132
Table 2.3-57	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (September)	2.3-135
Table 2.3-58	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (October).....	2.3-138

List of Tables (Continued)

Table 2.3-59	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (November).....	2.3-141
Table 2.3-60	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (December).....	2.3-144
Table 2.3-61	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for Low Tower El. 63 m at Lungmen NPS Site (Annual).....	2.3-147
Table 2.3-62	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (January)	2.3-150
Table 2.3-63	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (February)	2.3-153
Table 2.3-64	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (March)	2.3-156
Table 2.3-65	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (April).....	2.3-159
Table 2.3-66	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (May).....	2.3-162
Table 2.3-67	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (June).....	2.3-165
Table 2.3-68	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (July).....	2.3-168
Table 2.3-69	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (August)	2.3-171
Table 2.3-70	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (September).....	2.3-174
Table 2.3-71	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (October).....	2.3-177
Table 2.3-72	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 M at Lungmen NPS Site (November)	2.3-180
Table 2.3-73	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (December).....	2.3-183
Table 2.3-74	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 63 m at Lungmen NPS Site (Annual)	2.3-186
Table 2.3-75	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (January)	2.3-189
Table 2.3-76	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (February)	2.3-192

List of Tables (Continued)

Table 2.3-77	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (March)	2.3-195
Table 2.3-78	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (April).....	2.3-198
Table 2.3-79	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (May).....	2.3-201
Table 2.3-80	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (June).....	2.3-204
Table 2.3-81	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (July).....	2.3-207
Table 2.3-82	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (August)	2.3-210
Table 2.3-83	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (September)	2.3-213
Table 2.3-84	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (October)	2.3-216
Table 2.3-85	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (November)	2.3-219
Table 2.3-86	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (December).....	2.3-222
Table 2.3-87	Monthly Joint Frequency Distribution of Wind Speed, Wind Direction, and Pasquill Stability Class for High Tower El. 93 m at Lungmen NPS Site (Annual)	2.3-225
Table 2.3-88	Outline of Meteorological Instruments at Lungmen NPS Site	2.3-228
Table 2.4-1	Estimated Peak Floods for Various Return Periods of Shuang Chi Creek and Shihting Chi Creek.....	2.4-29
Table 2.4-2	Tide Records of Aoti Tide Gauge Station (1980-1983).....	2.4-30
Table 2.4-3	Annual Maximum Daily Precipitation Records at Yenliao.....	2.4-31
Table 2.4-4	Precipitation Records at Keelung Hydrometric Station	2.4-32
Table 2.4-5	Precipitation Intensity-Duration Equations for Various Return Periods in Keelung.....	2.4-33
Table 2.4-6	Average Precipitation of Yenliao and Keelung	2.4-34
Table 2.4-7	Procedures Used in Calculating the Maximum Temporary Ponding Depth.....	2.4-35
Table 2.4-8	Statistics on Average Values and Extreme Values for Precipitation at Meteorological Observation Stations in Northern Taiwan (in mm).....	2.4-36
Table 2.4-9	Statistics on Number of Days and Number of Hours of Rain and Number of Days of Thunderstorms at Meteorological Observation Stations in Northern Taiwan	2.4-37

List of Tables (Continued)

Table 2.4-10	The Shallow Terrain Submarine Earthquake Records in North-East Sea Area of Taiwan (1904-1973) (Sheets 1-4).....	2.4-38
Table 2.4-11	Tsunami Historical Data	2.4-42
Table 2.4-12	Annual Smallest Daily Flows Recorded at Shuang Chi Hydrometric Station No. 2.....	2.4-43
Table 2.4-13	Radionuclides Evaluated	2.4-44
Table 2.4-14	Summary of Flow Path Parameters	2.4-45
Table 2.4-15	Results of Analysis	2.4-46
Table 2.5-1	Items of Phase I of the Plant Site Geological Survey of Lungmen NPS	2.5-55
Table 2.5-2	Items of Phase II of the Plant Site Geological Survey at Lungmen NPS.....	2.5-56
Table 2.5-3	Stratigraphic Correlation of Site Area.....	2.5-57
Table 2.5-4	Summary of Groundwater Observation Well Levels (Sheets 1-2).....	2.5-58
Table 2.5.5	Summary of Rainfall Data - Aug 1980 - Jul 1982.....	2.5-60
Table 2.5.6	Chemical Analysis of Ground Water, Fluvial Water, and Sea Water Sample.....	2.5-61
Table 2.5.7	All Earthquakes of Any Magnitude within 5 Miles of the site (Sheet 1-2).....	2.5-62
Table 2.5-8	Results of Determination of the Faults Age at Lungmen NPS Site (carbon-14 content).....	2.5-64
Table 2.5-9	Comprehensive Table of Soil Sampling Category of Lungmen NPS.....	2.5-65
Table 2.5-10	Table of Mechanical Test Analysis of Rock at Lungmen NPS Site	2.5-66
Table 2.5-11	Geologic Log of Drill Hole (Sheets 1-2)	2.5-67
Table 2.5.12	Modulus of Elasticity and Poisson's Ratio at First Loading Cycle.....	2.5-69
Table 2.5-13	Preliminary Estimation of the Elastic Modulus (E) From the P-Wave Velocity (VP)	2.5-70
Table 2.5-14	Petrographic Analysis of Thin Sections (Sheets 1-3).....	2.5-71
Table 2.5-15	Summary of Groundwater Chemical Analysis Yenliao Site.....	2.5-74
Table 2.5-16	Strain-Dependent Shear Modulus Reduction Factors for Rock.....	2.5-75
Table 2.5-17	Strain-Dependent Damping Ratio Values for Rock	2.5-75
