

## Chapter 6 List of Tables

Table 6.1-1	Engineered Safety Features Component Materials .....	6.1-5
Table 6.2-1	Containment Parameters.....	6.2-82
Table 6.2-2	Containment Design Parameters .....	6.2-83
Table 6.2-2a	Engineered Safety Systems Information for Containment Response Analyses.....	6.2-84
Table 6.2-2b	Net Positive Suction Head (NPSH) Available to RHR Pumps .....	6.2-85
Table 6.2-2c	Net Positive Suction Head (NPSH) Available to HPCF Pumps .....	6.2-86
Table 6.2-2d	Secondary Containment Design and Performance Data .....	6.2-87
Table 6.2-3	Subcompartment Nodal Description .....	6.2-89
Table 6.2-4	Subcompartment Vent Path Description .....	6.2-90
Table 6.2-4a	Flow Loss Factor .....	6.2-91
Table 6.2-4b	Mass and Energy Release Rate.....	6.2-92
Table 6.2-5	Reactor Coolant Pressure Boundary (RCPB) Influent Lines Penetrating Drywell .....	6.2-93
Table 6.2-6	Reactor Coolant Pressure Boundary (RCPB) Effluent Lines Penetrating Drywell .....	6.2-93
Table 6.2-7	Containment Isolation Valve Information.....	6.2-95
Table 6.2-8	Primary Containment Penetration List .....	6.2-144
Table 6.2-9	Secondary Containment Penetration List .....	6.2-145
Table 6.2-10	Potential Bypass Leakage Paths .....	6.2-146
Table 6.3-1	Significant Input Variables Used in the Loss-of-Coolant Accident Analysis.....	6.3-24
Table 6.3-2	Operational Sequence of Emergency Core Cooling System Maximum Core Flooder Line Break .....	6.3-26
Table 6.3-3	Single Failure Evaluation .....	6.3-27
Table 6.3-4	Summary of Results of LOCA Analysis .....	6.3-28
Table 6.3-5	Key to Figures .....	6.3-29
Table 6.3-6	Plant Variables with Nominal and Sensitivity Study Values .....	6.3-30
Table 6.3-7	MAPLHGR Versus Exposure .....	6.3-31

**List of Tables (Continued)**

Table 6.3-8	Design Parameters for HPCF (E22) Components .....	6.3-32
Table 6.3-9	Design Parameters for RHR (E11) Components .....	6.3-34
Table 6.4-1	Identification of Failure/Effect in the Control Room Habitability Area HVAC System .....	6.4-11
Table 6.4-2	Control Room Habitability Area HVAC System Failure Analysis .....	6.4-12
Table 6.5-1	Summary of Major Standby Gas Treatment System Components .....	6.5-13
Table 6.5-2	Source Terms Used for SGT Charcoal Adsorber Design .....	6.5-15
Table 6.6-1	Examination Categories and Methods .....	6.6-10
Table 6.7-1	Nitrogen Gas Demand .....	6.7-5
